Need to fix and update but a good game ;D. I haven't played this game for long but it looks like a very good game. I love it. I found this game great, so great in fact that I made a series of it on my Youtube channel (Joedeco). Best game in the industry. This game just gets boring, as a simple tycoon there isn't much to do BUT rinse and repeat. A lot of useless features, plus with the game being released before it is finished doesn't bode well. It is a gamble whether or not this game will be abandoned or may get a few updates of course since it's released updates are probably stopping completely...

best model for a plant. gets a little boring. I can't suggest it, just because of how broken so many of the mechanics are. People will get stuck all over. It will slow down horribly, a lot isn't explained. Like the useless box factory. Eventually your game will get to a point that it's just an unplayable mess.

My janitors all got stuck floating in the air. Couldn't fire them, they wouldn't clean, people were SUPER unhappy. Electritions get stuck in the door constantly getting paid. Money doesn't...go down. I was making enough fast enough to offset it, but it's still there. Worker gets stuck in doorway and never moves. I have screencaps to back all this up by the way.

The devs claim a 2.0 is in the works, but they've gone silent. Just save the \$4, or go spend it on something better. Like...anything else.. Fun game little game that for \$4 you can't wrong with. This game fits into genre of upgrade V expand V build up more money then rinse repeat. It's got charm and some cool little details that make it stick out. If you are into these types of game then it's a solid buy that appears to have a lot more coming in the future.

[We have free game giveaway's every month for all Members. just click Follow and Join!. I really don't know what did I just buy, but yeah. 10/10 for the plant.. This is not a game. This is the idea of an game. Why produce boxes when you can't sell them. Don't buy this.. A cute little Early Access sim that might have been bumped to 1.0 a bit too early.](#)

[Right now, not much to look at. Poor game balance, some silly bugs, disorganized UI, but the developers seem to be passionate about making it great and it's worth \\$4 to support that effort.](#)

[I'm looking forward to watching this game evolve into a great title.. Start by building an office then drop 4 workers at their desks. A plant and a soda pop machine will keep them happy. Plop down an elevator when you're ready to build higher.](#)

[Now it's time for you to act like a BOSS! Sit back in your chair and say things like "Let's go people. I wanna hear some typing going on. Let's make some noise! Isn't Frank back from lunch yet? We can't make no money if you people ain't at your desks! Do you know how much money this company had when you all came in here this morning? Minus 27 dollars! MINUS! Do you know how much money that plant cost that you all like to look at all day? \\$1800 dollars. That's right. This is what we're working for, people. So let's see some enthusiasm here.](#)

[Janet, I'll need that report on my desk before you go on your little smoke break. And listen up everybody - the soda pop machines are for everybody, but I don't want you people congregating around them all day. Can you guys downstairs hear me? I can't be everywhere at once, so I wanna see some productivity outta you guys down there. George, I'm only seeing single digit numbers flying out of you. let's shape it up there buddy.](#)

[I don't think you people realize just how close we are to declaring bankruptcy. I have a button - it's an actual Bankruptcy Button. I could push it at any time and put you all out on the street without a job. Karen, put the soda pop down and get back to your desk. Okay people let's go! Let's make today the day we do one hundred and twelve percent!". i loooooooooooooooooooooooooooooveeeee thessssssss game. If you are looking for a really layback simple tycoon then this is the game for you. If you are looking for a tycoon where you have competeters and you can design your own structures then do not buy this game.](#)

[As a whole though I really enjoyed this game as just a casual simple little game.](#)
